## The eToro investing platform and app

Access eToro with an easy-to-use web platform and intuitive mobile app

Get Started

Join eToro today and discover an array of unique features, both on mobile and web:

The most popular digital currencies and top US stocks

Low and transparent fees

Features for novices and experts

Wisdom of the crowd via social trading

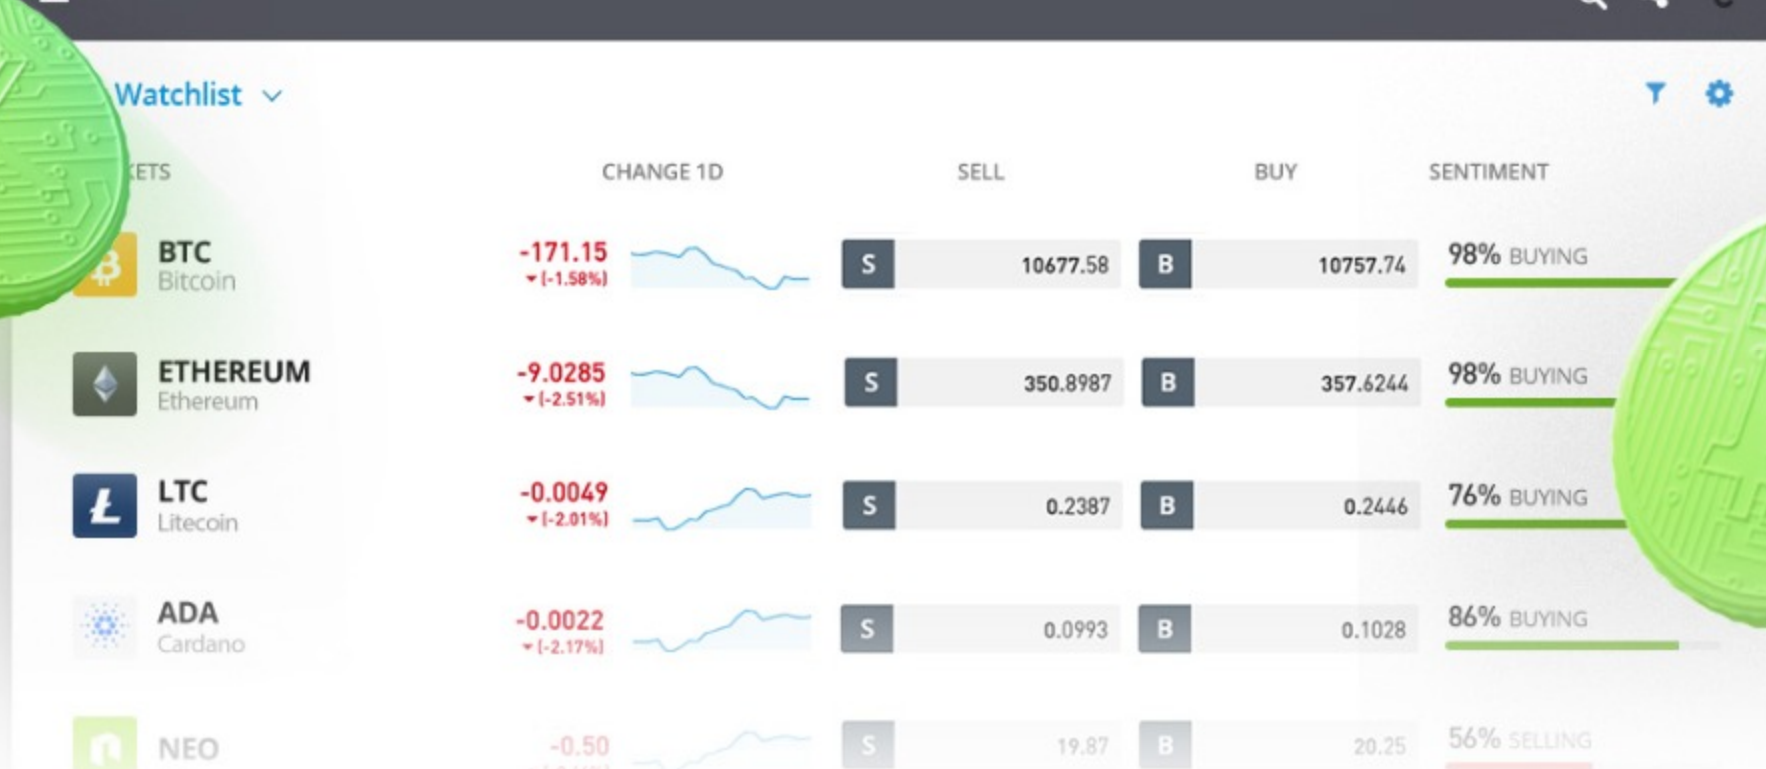

Ready-made Smart Portfolios

Intuitive, easy-to-use platform

### Multi-asset platform

Build a diversified portfolio with a mix of cryptocurrencies, stocks and ETFs. eToro offers more than two dozen cryptocurrencies, including Bitcoin, Ethereum, and Litecoin, plus stocks and ETFs from the biggest US listed companies and funds. And now with **eToro Options**, you can explore more ways to invest. Explore via the [Trade Markets Page](#).

To enable traders direct access to the crypto market, we offer direct ownership of the underlying assets, which we buy and hold in each client's name.

### Deposits, withdrawals and fees

**Deposit** and **withdraw** using wire, debit card, or ACH bank transfers. We offer low minimum deposits and competitive spreads.

### Trading features

We want to open the market to everyone, with an easy-to-use, intuitive interface. To help clients better manage their finances, we developed a few innovations:

**VIRTUAL PORTFOLIO**

Upon opening an account with eToro, each user receives a free \$100,000 demo account. You can build, practice, and experiment with a personal virtual portfolio.

### Social trading

We focus on social trading, harnessing the wisdom of the crowd for your benefit.

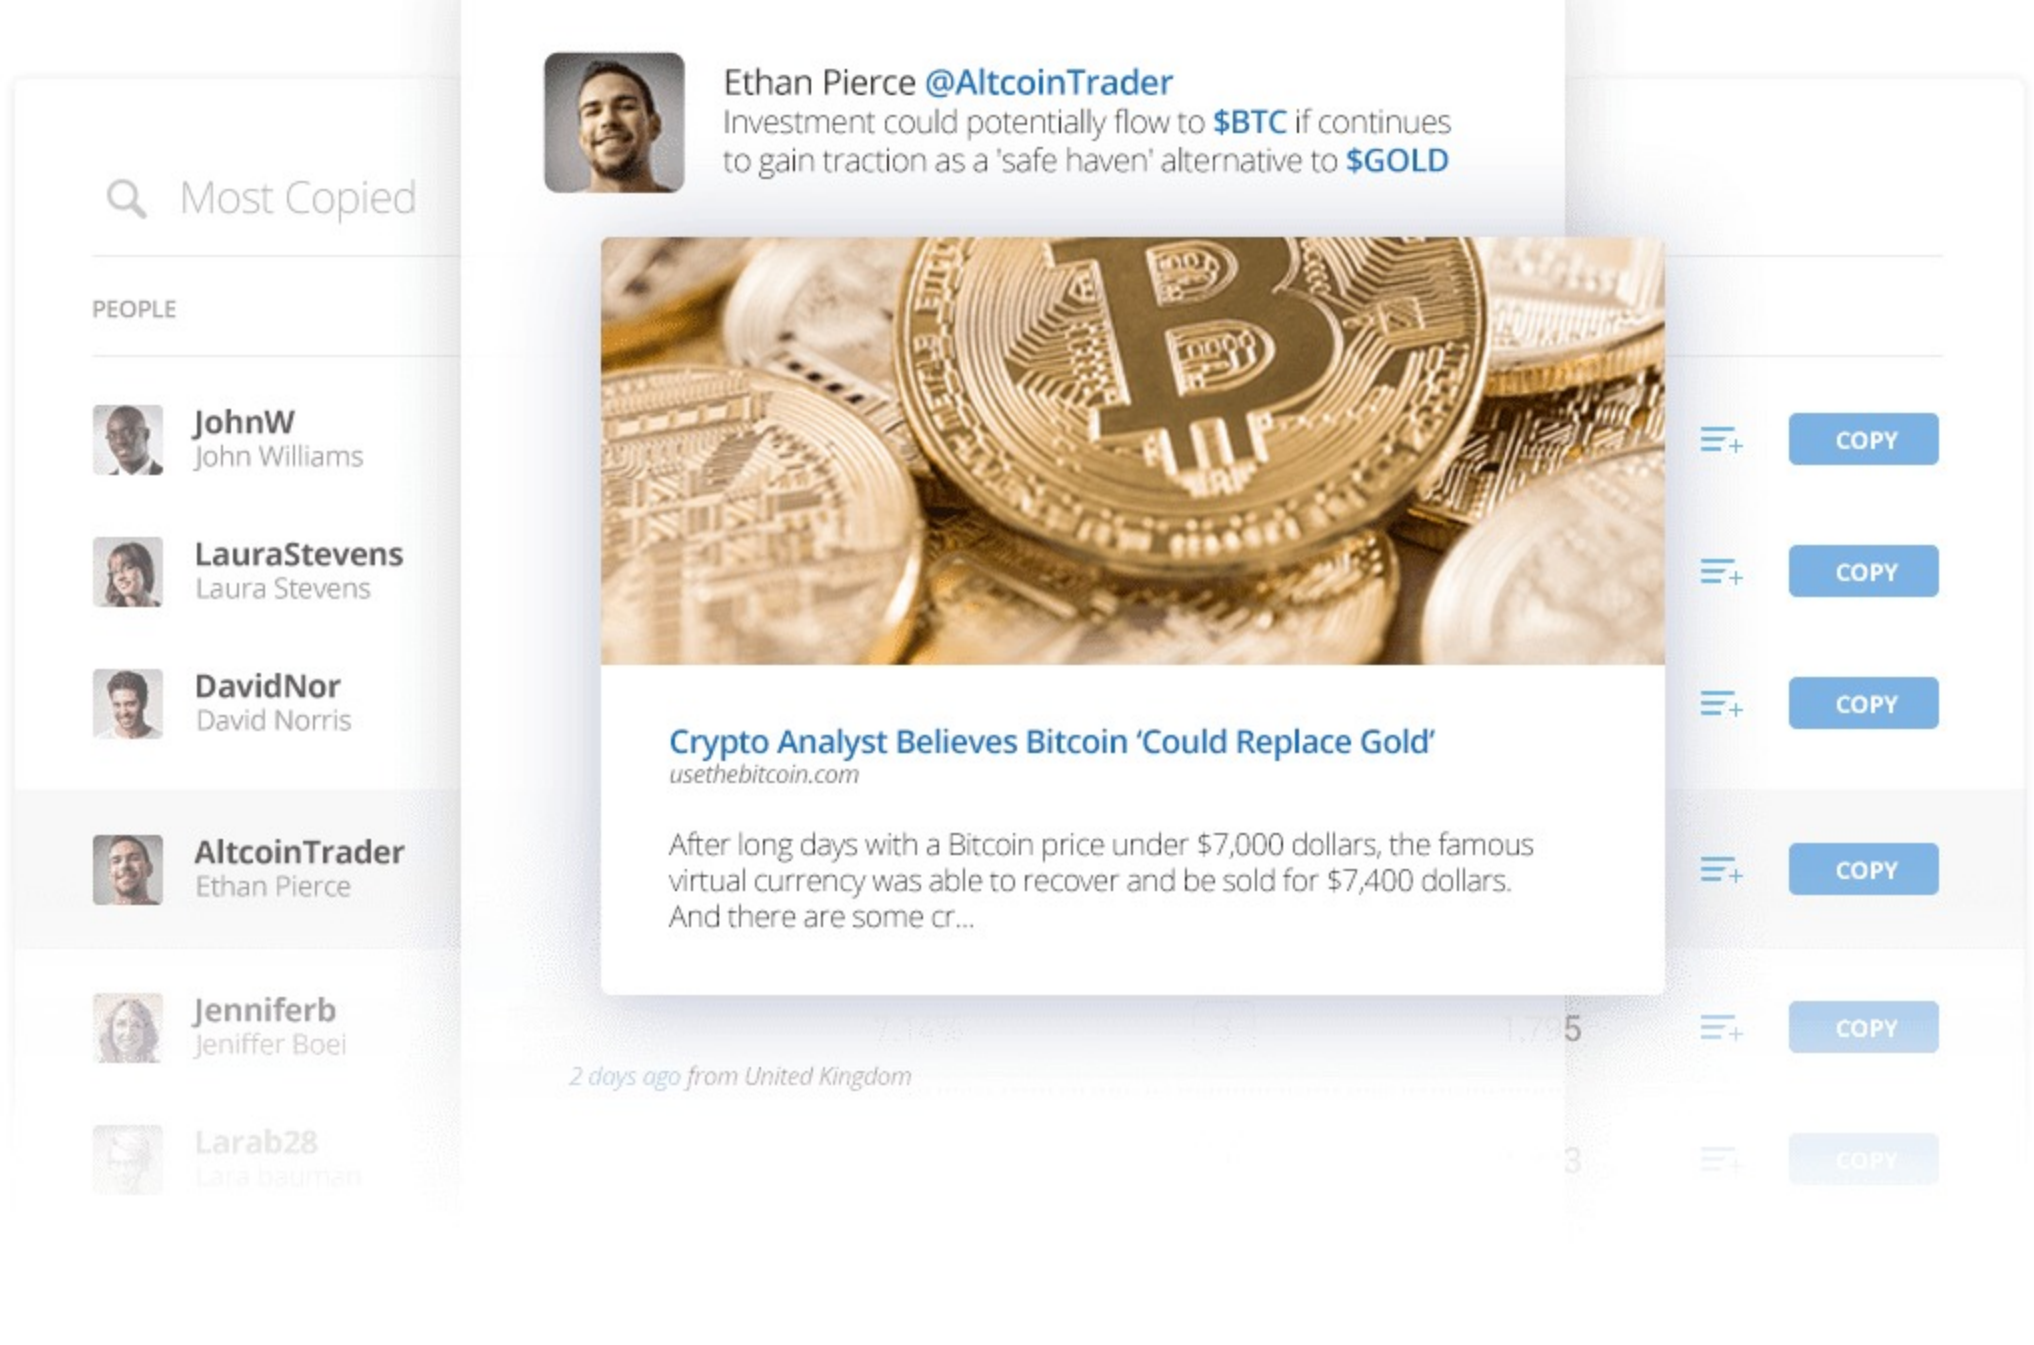

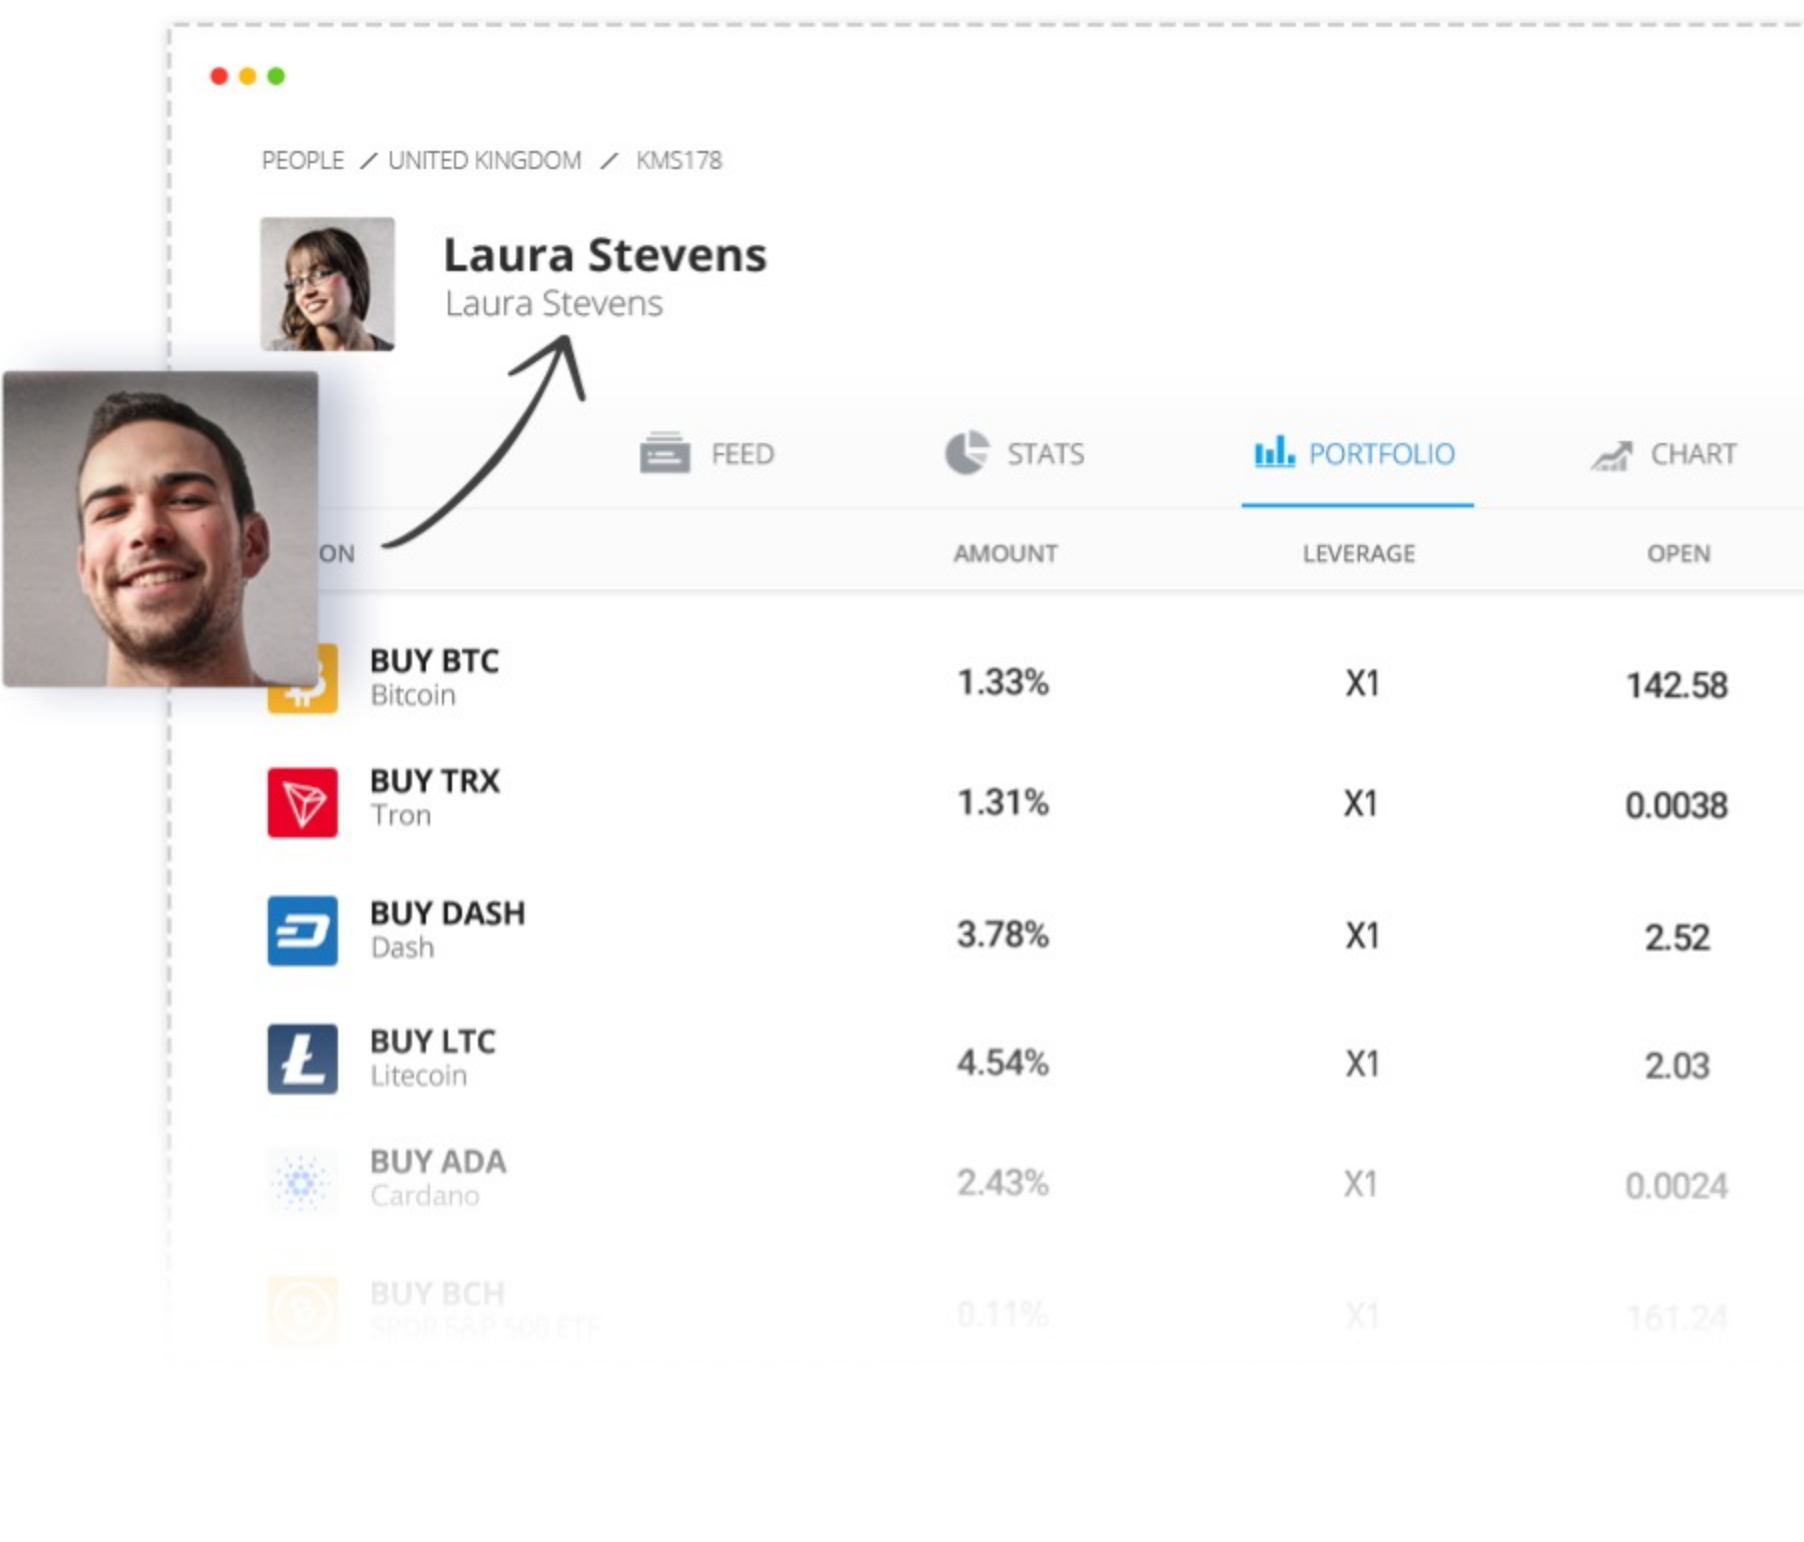

One of our key differentiators is the fact that we created a community of traders, in contrast to the often solitary feeling of trading online. eToro is a bustling online social network, where you can discuss ideas, share trading decisions, and talk strategies on the social News Feed.

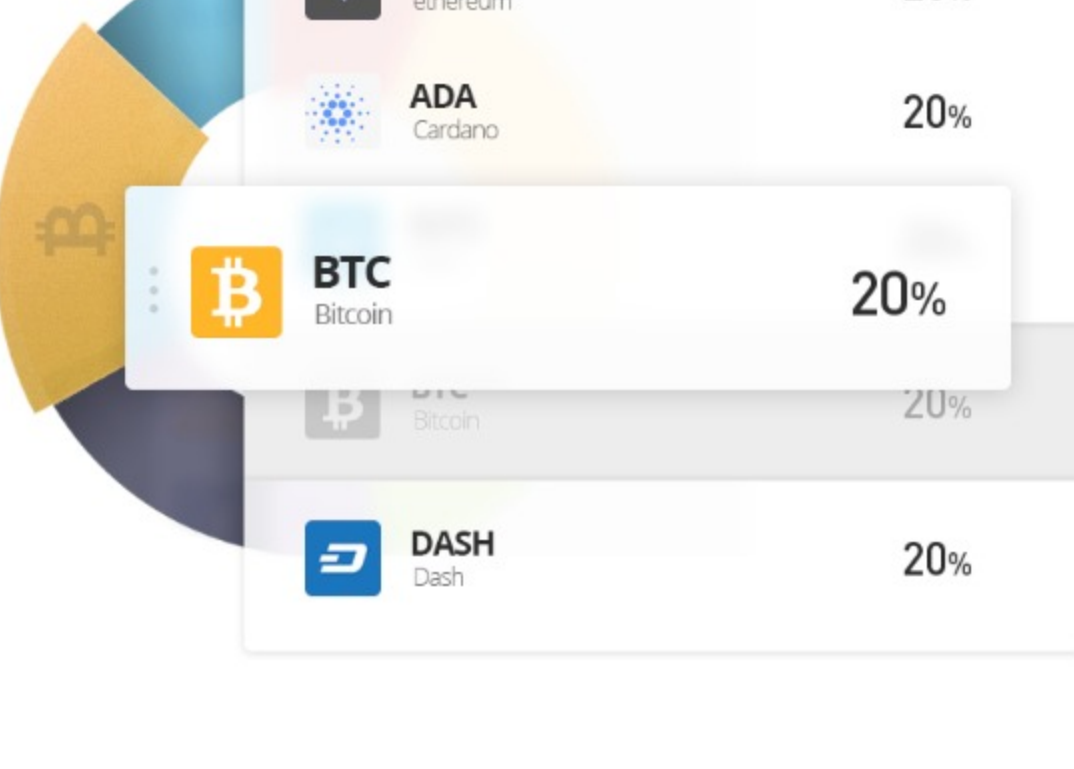

### CopyTrader™

**CopyTrader**, enables you to replicate other traders' actions in real time. To encourage top traders to get copied, we created the **Popular Investor** program.

### Smart Portfolios

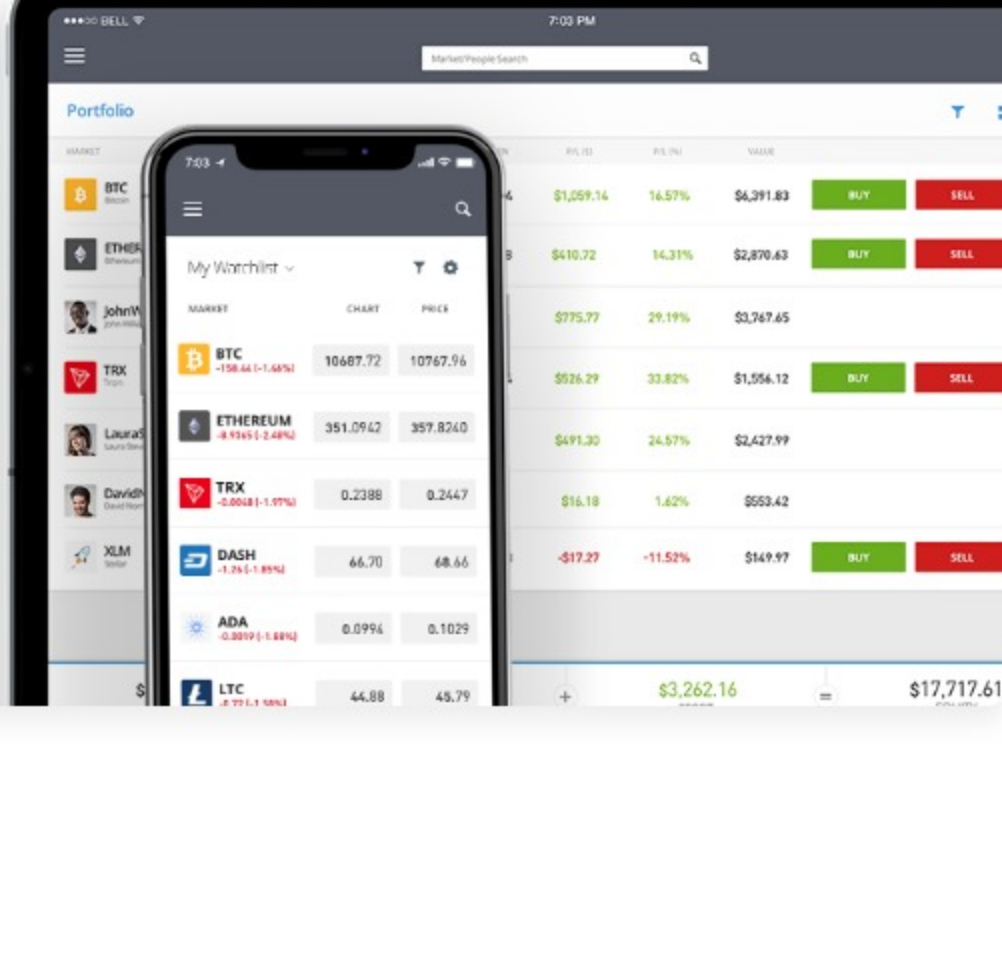

These are ready-made portfolios of digital currencies. All **Smart Portfolio** operates with a different methodology, is rebalanced regularly, and is overseen by eToro's Investment Team.
